

Class One

Reception Home Learning Activity Plan 27.4.20

Top Tips for Maths.

Maths can be part of everyday activities through games, stories and conversations.

Here are some ideas:

- Play board games like snakes and ladders or other games with numbered spaces.
- Use meal and snack times to teach concepts like sharing, telling the time, counting. Estimate the number of beans on your plate or compare the size of potatoes.
- Use manipulatives like bricks or toys of different sizes and amounts.
- Help measure ingredients for a recipe. Read the scale on a measuring jug- are all of the divisions labelled?
- Play 'What's the Time Mr Wolf'. You can google how to play this fun game if you do not know how to play it.

Maths Topic - 'Time'

Click on the link for Espresso either below or via school website.

Click on Key Stage 1.

Scroll down and click on the topic box called **Time**. Now click on the relevant resources.

All clips are found in **Videos** and follow up activities are in the **Activity** section.

Online learning at: www.espresso.co.uk/

login: student23945

password: bolton

(Top tip: check lower case b is in the password - it sometimes self correct

I have put the following activities into sessions to make it easier for the sequence of learning. You may get through all of the activities planned for that session or you may work on them over several days. For example, you might watch the clip in session 1 and complete one activity. Then the next day you may decide to look at the clip again in session 1 and complete a different activity. Please work through them at a pace that works for you and your child.

Session 1 - Days of the Week

Watch the Espresso the clip called 'A Week a the Stable'. Discuss with an adult what happened on each day. You might want to go through the clip again to get the answers.

Activities

- Write out the days of the week in the correct order in your home/school book or say the days of the week to an adult.
- Order days of the week - Use Espresso
- Time Quiz - Stables - Use Espresso.

Session 2 Months of the Year

Look at a calendar. Discuss with an adult the months of the year and any important or special events you come across. Watch Espresso clip - Months.

Activities

- Ordering months of the year.

Session 3 Time - Hour

Can you find a clock in the house? Discuss with an adult the numbers and length of the hands on the clock. Watch Espresso clip on Hour. Only watch the clip up to 3.00 minutes looking at telling the time to the hour and then stop the clip.

Activities

- Make your own clock with hands and sing the song Hickory Dickory Dock.
- Now play the game 'What's the time Mr Wolf' using the clock that you have made. Don't forget when the hands at 12.00pm it is dinnertime!

Session 4 Time - Hour/Half hour

Watch the clip on Espresso - 'On the Farm Part 1 and Part 2'.

- Quiz after the clip.

More activities you can work through.

You can also visit the White Rose website to watch clips to support your learning at home.

Look at Summer Term **Week One**. Work through these activities. There are also some really nice stories on this website too.

Science

Our new science topic is plants.

On Espresso follow: Key Stage One, Science, Plants, Videos and select the video 'How do plants grow?' Watch this clip and discuss the different parts of a flowering plant.

Now explore the activities. Try the activity 'Parts of a flower.'

You could also draw and label the parts of a flower in your home/school exercise book.

PE

Try PE sessions with Joe Wicks on Youtube, live at 9am Monday- Friday.

Look at the Active Challenge cards that I have attached again too.

RE

Our focus this term is creation.

Draw, paint or collage a picture of our wonderful world. Take note of plants and animals that you can see in your garden or out on your once daily exercise.

Music

Try the free home resources from Out of the Ark. www.outoftheark.co.uk/

There's even a song linked to our science topic- 'The Seed Song' found in week 3 songs.

English

Reading

Please do not worry that you can't change reading books in school; you can still read lots of your own books from home. It is important that you do read something or that someone reads to you though.

Discussing a book is a valuable part of the reading process. You could involve all members of your family too. All read the same book together and then hold your own book review! Write down your thoughts and ideas in your home/school book.

Oxford Owl has many of the reading books we have in school as ebooks to read online. Look in the section for your age. You need to register with an email address and password you create to read the books. This is free.

<https://www.oxfordowl.co.uk/for-home/find-a-book/library-page/>

Writing Task

Choose a book from home and look at the main character in the book.

Discuss the character with an adult.

Draw a picture of the character and write some words underneath that describes the character.

Now using the words that you have already written about your character, put them into some sentences.

Don't forget to use full stops, finger spaces and capital letters too.

Continue to practise your phonics!

Use the following websites to help you with Phonics or use your small blue phonic books.

Work on Phase 3 activities.

<https://online.espresso.co.uk/espresso/login/Authn/UserPassword>

<https://www.phonicsplay.co.uk/>

Spellings

Reception key words - and, get, can, dad, in, mum.

Read these words and learn them. Find them in your reading.

Write them out. Can you spell them. Have a go.

Keep up the good work!

Mrs Reynolds and Mrs Parr.
