

Class 3 Newsletter 29th June 2020 to 11th July 2020

Thank you!

First of all I would like to say a big thank you to everyone for getting through the lockdown and home learning-you have been brilliant. I am so impressed with the work I have seen and the things you told me about on the telephone and just want you to know how very proud I am of you all.

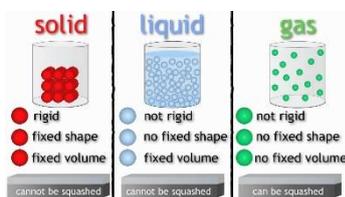

Maths

Continue with your choice of either Classroom Secrets or White Rose Maths. Topmarks Hit the Button is excellent to challenge yourself or simply practise speed and recall of topics such as doubling, square numbers and times tables.

English

Continue with the Lockdown challenge. I have also provided a new task if you have completed the first creative writing challenge called The Stone Trolls (Year 3) and Maria-Aliens (Year 4) so you can write a story to finish your English this term. Classroom Secrets are doing an excellent job of keeping your grammar and reading comprehension going so please continue to use that too if you have any spaces to fill!

Science

Continuing with our materials and states of matter challenges there are two activities for you to explore.

Task 1

Read what happened to my ice lolly and complete the worksheet. Last week's video clip <https://www.bbc.co.uk/bitesize/clips/zpbvr82> will help you and there are some excellent videos on BBC Bitesize that you will find interesting and informative

<https://www.bbc.co.uk/bitesize/articles/zvxthbk>

Task 2

Watch the clip:

https://central.espresso.co.uk/espresso/modules/t2_comp_model/water_supply/video_cycle.html?source=search-all-all-all-all&source-keywords=the%20water%20cycle

You might want to watch The Water Cycle song to see the process in a clear, fun way.

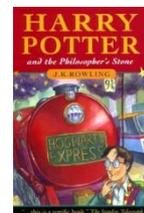

<https://www.youtube.com/watch?v=TWb4KIM2vts>

After you have watched The Water Cycle clip and the song, complete the diagram-there are three levels of difficulty so select the one you feel is the best for you. Remember you can always watch the clips again to help you with vocabulary.

There is also a fun activity to try where you make your own model but please only do this if you have the equipment to hand. There is no need to go out and buy the items.

Harry Potter/English/Art and Design

I hope you have been watching the story readings on www.wizardingworld.com Now I would like you to design a front cover for *Harry Potter and the Philosopher's Stone*. Remember a book cover should give a taster about the book but should be clear and eye-catching for the potential reader.

Enjoy exploring different ideas.

Physical Education

Well done to everyone for completing the virtual sports day challenges. I know you had a lot of fun. The GoNoodle website <https://www.gonoodle.com/good-energy-at-home-kids-games-and-videos/> has a lot of fun ways to keep you happy and get you moving. Always ask an adult to check that the activity is appropriate for your age group-in school we tried the Young Dylan Dance Along which was a good way to create some moves and get you dancing.

Religious Education/PSHCE

Reverend Mary has worked very hard throughout lockdown to keep the Open the Book stories going with her videos and reflections; for that we are very grateful. I would like you to design a THANK YOU message/card for Reverend Mary to show her how much we appreciate her hard work. You could have a look

at the stories again and base your illustration on one of the themes she has talked about during lockdown. <https://www.esbb.co.uk/page/135/open-book>

If you prefer to write a letter and decorate it, then that is fine too. Please E-mail these to me so I can send them on.

PSHCE

Task 1

Superheroes

Task 1

Find a quiet place to stand where you feel safe. Strike your best superhero pose and hold it for 2 minutes.

How has it made you feel?

What did your superhero smell?

What did your superhero hear?

What did your superhero see?

What did your superhero taste?

What did your superhero touch?

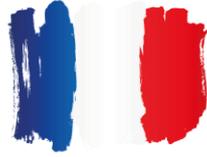

Task 2

Take yourself and your family out for a walk. Call it a wilderness trail. Whilst you are walking, have a competition on who can find the smallest creepy crawly. How many birds can you count? Are they all the same or are they different?

Can you find every colour of the rainbow? What does a rainbow smell like? Look in puddles to see if anything is swimming. Can you hear bugs? What sounds are they making? Can you copy them? Say the alphabet and try and identify something different for each letter.

Don't wait to see what the weather is like - a walk in the wind or rain can be every bit as stimulating, sometimes more so, than a walk in the sunshine.

French

This week the theme is the weather.

Watch the beginner's French clip <https://www.youtube.com/watch?v=tlE6tBiSHvc>

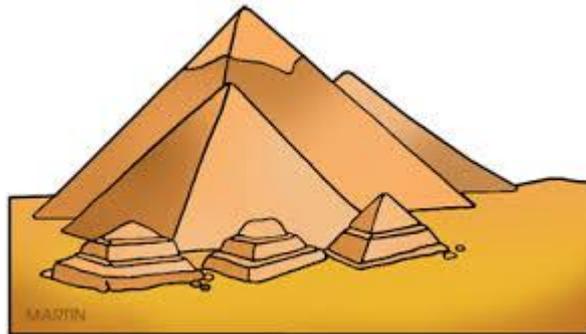

Repeat the sentences and then draw a picture and write the correct sentence underneath.

The following week play the Connect 4 French weather game with a member of your household.

S'amuser!

Topic

Thank you for all of the amazing work linked to the Ancient Egyptian topic.

I would now like you to write down twenty facts that you now know about this ancient civilisation. Try to make them detailed. For example:

- I know that the Rosetta Stone was found in Rosetta, Egypt by a French soldier.

Enjoy showing me all you have found out.

As always, please let me know if you need any support or help with your learning and please continue to send me the photographs and updates about how you are getting along.

With my very best wishes,
Mrs Jones and Mrs Brooks
