

Class 3 Newsletter and Home Learning

2nd June 2020-12th June 2020

Hello everyone,

I hope you had a lovely half term holiday and enjoyed some fun activities with your family. Welcome back to the second half term of the summer and more home learning.

Following your helpful feedback, I have included my suggested timetable separately for the next two weeks as I know some of you are finding this useful to follow and are printing it off and adapting/annotating it. There are some new challenges linked to the topics for the summer term. Again, please do not worry if you have not managed to get through everything and remember I am here to answer any questions you have so please do continue to contact me. I know lots of you are enjoying the Classroom Secrets activities-this half term I have attached the White Rose Maths as an additional option as there are video links to the challenges which you might find helpful. Content coverage is similar for both sets of work.

Information to support additional learning challenges

The Big Question: How and why do believers show their commitment during their journey of life?

Thank you for watching the clip and making comparisons

between your life and that of Me-Me. I hope you enjoyed evaluating the circles and learning about Bat Mitzvah.

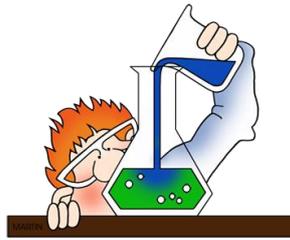

This week watch the clip about two young British Hindus, Simran and Vraj.

<https://www.bbc.co.uk/teach/class-clips-video/religious-studies-ks2-my-life-my-religion-hinduism-meeting-two-british-hindus/zkghf4j>

Using the jigsaw template, write down a fact that you find out about Simran and Vraj on each piece: you can include favourite food, friends, hobbies and beliefs.

Then complete an identity jigsaw for yourself. What's the same? What's different? What do you think the key message is from the clip?

Science

Our next step on our 'Animals including humans' ladder is a focus on food groups and healthy eating. Please find attached a maths meets science activity in the Healthy Eating Codebreaker. Use all your knowledge about fractions to work out the code and learn more about healthy eating. There are three different levels for you to try.

In Week Two watch the clip <https://www.bbc.co.uk/bitesize/topics/zrffr82/articles/zppv4j> and write your own explanation of the food groups you have learnt about. You could create a food plate for each food group.

The answers to the mystery skulls were a wolf and a horse. Well done if you worked that out!

Fiver from Home Entrepreneurial Challenge

What could you do with five pounds?

This is a fun entrepreneurial challenge to try at home.

Please find the booklet and full instructions attached.

There are four steps to complete so I suggest you take one per week over the next month. Enjoy!

History/Geography

Your task is to create a fact file on the River Nile. Why is this river so important to Egypt? You can choose to present it in any way you want and include information about Ancient and Modern Egypt. The following websites will be useful:

<http://www.primaryhomeworkhelp.co.uk/egypt/nile.htm>

<https://www.natgeokids.com/uk/discover/geography/physical-geography/nile-river-facts/>

Spelling

You have been working hard on words on your spelling list. Have a go at the misspelt words activity linked to our Year 3/4 dedicated words. There are six

activity sheets so complete one per week checking your answers carefully then see if you can spell the words independently.

Conversations in French

Use the attached prompts to revise conversational phrases then complete the speech bubbles for the people and animals.

<https://www.collinsdictionary.com/dictionary/english-french> is a useful place to find any new vocabulary you might want to use.

Reading/Art

Thank you, Mrs Rafelt, for drawing my attention to some exciting news-J.K. Rowling has released an on-line version of a book she has completed during lockdown.

<https://www.theickabog.com/home/>

It's very different from Harry Potter.

You can read all about it by clicking on the link above and then it would be great if you could create an illustration for the book and enter the competition using evidence from the text and your imagination to support your illustrations. Enjoy! I have really enjoyed reading it.

WWF

This week it's JUNGLES. You could join in the garden safari at 11am on Tuesday or choose another activity like the Trillion Trees Art Challenge. See the sheet attached.

Please do not hesitate to contact me if you need any help, advice or support. I am looking forward to seeing more of your fantastic work.
