**Celebrating our love of reading with a visit from North Yorkshire Library Service** We were delighted to welcome the library service to our school last week. They presented children with certificates for their completion of the Library Summer Reading Challenge. We shared our favourite authors and celebrated some new books we have already bought for school. We reminded everyone to visit their local library; Catterick, Richmond, Northallerton. Here you can get a library card for free and borrow lots of exciting books - all for free!

## National Poetry Day Thursday 6th October

In celebration of our love of poetry each child is asked to learn an age appropriate poem and share it with their class next Thursday. For our youngest children this could be a nursery rhyme, whilst older children might want to challenge themselves. We have lots of poetry books in our library to inspire you. Please ask to borrow one.

**Please see highlights and learning in each class this week on the next pages.**

**This week in Class 1** we have continued with our Science work on seasonal change and autumn. We have learnt about adult and baby animals and the life cycle of a butterfly. We have explored rhythm in music and enjoyed singing and number rhymes. Our Year 1 children had a great time at the Multi skills Festival at Richmond School. In RE our Y1 children looked at symbols of Christianity and Judaism. Mrs Reynolds is pleased with our number work and maths. We have been ordering and sequencing and finding one more than a given number.

**This week in Class 2** Mrs Smith and Mrs Dutton have had another great week with Class 2. In Science we have looked at life cycles of animals and humans. We thoroughly enjoyed our Multiskills Festival at Richmond School. In our RE work we have looked at symbols of Christianity and Judaism. In computing we have explored programming with Beebot online. In art we have produced portraits inspired by the artist Picasso and his cubist style.

**This week in Class 3** we have worked hard in Maths, comparing and ordering numbers to 1,000 and 10,000. We have also learnt Roman Numerals. In English we are really enjoying our Class reader, 'The Boy with the Bronze Axe'. In Science our work on Electricity has involved us making circuits and identifying and naming the key components. In Art we have created faces in the style of the artist Giuseppe Archimboldo. In RE we have explored the wonderful aspects of creation inspired by the song, 'What a wonderful World' by Louis Armstrong and linked this to the account in Genesis of the Creation story.

**This week in Class 4** in Maths, we have focussed on sequencing numbers to 1,000,000. In English we have been reading and analysing WWII Diary entries from the Battle of Britain. In History our focus of discussion has been Winston Churchill's leadership style and his impact on the British public.
